

Addendum Number 2

December 21, 2017

2:00 p.m.

**County of Monroe, Michigan
Request for Proposals
Health Department Exterior Pole Lighting**

This addendum is issued prior to the due date and opening of proposals and award of contract, in order to provide changes and or clarifications in the proposal requirements issued by the County. This addendum will become part of the Request for Proposal and any contractual obligations shall be met by the respective parties to the ensuing contract.

Please amend the Request for Proposal dated December 13, 2017 by including in the RFP the following change:

A. Page 1, Cover Letter,

The final date for submitting a proposal for this project is **Thursday, December 28, at 4:00 P.M.** to Annamarie Osment, Monroe County Finance Department, 2nd Floor, 125 East Second Street, Monroe, Michigan 48161. Your envelope must be sealed and clearly marked **“Health Department Exterior Lighting Proposal”** so that no error in opening may occur. Alternatively, contractors may submit proposals by the same deadline via e-mail as a separate Microsoft Word or PDF document attachment to annamarie_osment@monroemi.org. Indicate the email subject line; a sealed proposal for **“Health Department Exterior Lighting Proposal”**.

B. Change in General Scope of Work for Base Bid

Due to new information regarding the size of the conduits on the existing base, the requested application of a square pole may cause issues fitting over existing wiring and conduit. In place of the square pole the proposal should be for a round 25' aluminum pole and you may also include an alternate price for a 20' round steel pole.

Sincerely,

Annamarie Osment
Operations Coordinator
